# Live - Zoom Enhancements + Key Commands + Zoom Tool

X

- In case the Loop locators are set or a Time Selection
  is made the user can engage the „Zoom to fit Locators" via
  View > „Zoom to fit Locators" or the corresponding
  Key Command
- If „Zoom to fit Locators" is engaged Live
  will zoom all content between Locators or Time Selection
  horizontally like it does when double clicking above the locators with
 the Zoom Tool

A

Zoom to fit Locators	⌥4
Zoom to fit All Contents	⌥A
Toggle Zoom to fit Selection or All Contents	Z
Restore Zoom	⌥W

Before

After

if nothing is selected in the Track Display/ Clip View
the user can engage the „Zoom to fit All Contents" via
View > „Zoom to fit All Contents" or the corresponding
Key Command
If „Zoom to fit All Contents" is engaged Live
will zoom out to fit all available content in the Track
Display/ Clip View horizontally and vertically
similar to what it does when double clicking in the
Beat Time Ruler with the Zoom Tool or secondary click to
„Show All"

B

Zoom to fit Locators	⌥4
Zoom to fit All Contents	⌥A
Toggle Zoom to fit Selection or All Contents	Z
Restore Zoom	⌥W
