Live - Zoom Enhancements + Key Commands + Zoom Tool
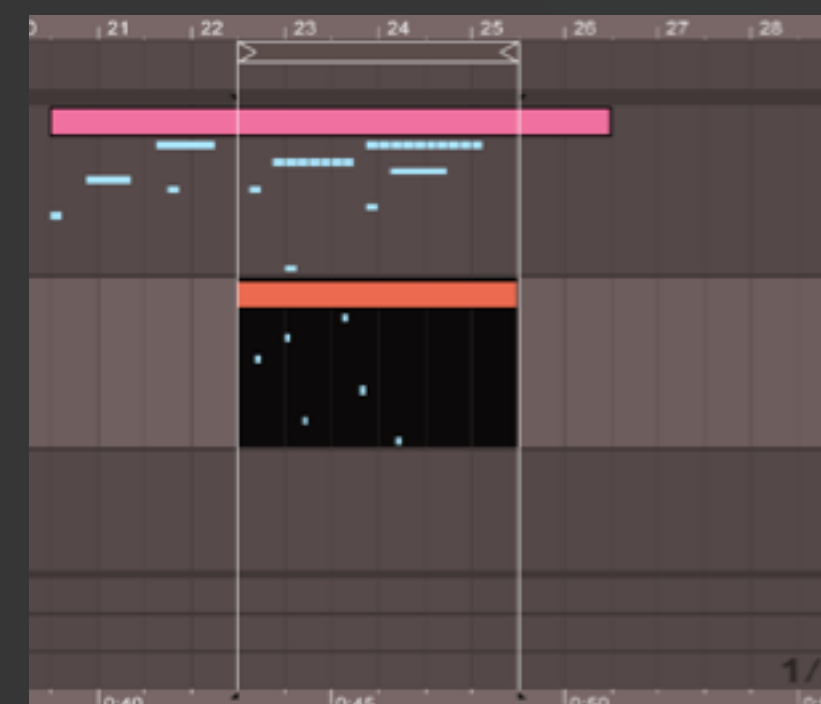

X

In case the Loop locators are set or a Time Selection
is made the user can engage the „Zoom to fit Locators" via
View > „Zoom to fit Locators" or the corresponding
Key Command

If „Zoom to fit Locators" is engaged Live
will zoom all content between Locators or Time Selection
horizontally like it does when double clicking above the locators with
the Zoom Tool

A

Zoom to fit Locators	⌥4
Zoom to fit All Contents	⌥A
Toggle Zoom to fit Selection or All Contents	Z
Restore Zoom	⌥W

Before

After

X

if nothing is selected in the Track Display/ Clip View the user can engage the „Zoom to fit All Contents" via View > „Zoom to fit All Contents" or the corresponding Key Command

If „Zoom to fit All Contents" is engaged Live will zoom out to fit all available content in the Track Display/ Clip View horizontally and vertically similar to what it does when double clicking in the Beat Time Ruler with the Zoom Tool or secondary click to „Show All"

B

Zoom to fit Locators ⌥4
Zoom to fit All Contents ⌥A
Toggle Zoom to fit Selection or All Contents Z
Restore Zoom ⌥W

Before
